DRAFT REMEDIAL INVESTIGATION WORK PLAN FOR OPERATIONAL UNIT NO. 8 (OU 8)  
(700 AREA) AND DRAFT ENVIRONMENTAL EVALUATION PROCEDURES FOR WASTE  
MANAGEMENT AREAS AT ROCKY FLATS PLANT - JEE-0074 -91

On May 22, 1991, you requested copies of two documents for your files: Draft Remedial Investigation Work Plan for OU 8 (700 Area) and Draft Environmental Evaluation Procedures for Waste Management Areas at Rocky Flats Plant.

The first document was prepared in July 1990 as a rough draft between EG&G Rocky Flats Inc., and our subcontractor and not for any other purpose. It has never been reviewed or corrected, and no further comments have passed between EG&G Rocky Flats and the subcontractor regarding its contents.

The second document was prepared by Colorado State University and was intended to serve as a guide for developing sampling procedures to be used in Environmental Evaluations. Unfortunately, the research scientists who wrote it were not aware of our guidance or requirements and the final product was not usable for its intended purposes. It was not used for developing Standard Operating Procedures or for any other official purpose.

Neither of these documents has been approved by EG&G Rocky Flats, and neither of them are EG&G Rocky Flats work products. We do not believe that copies of them should be distributed. Nevertheless, if you would like a copy of the Colorado State University document for your information, please call L. E. Woods of Remediation Programs at extension 5417.
